ABOUT FERROLI GROUP

Ferroli, the European multinational giant of domestic and industrial heating, air-conditioning and water heating, was founded in 1955 by Dante Ferroli in San Bonifacio, near Verona, in Italy. Today, nearly six decades later, Ferroli has 30 plants and business organisations, 6 R&D centres and operates in over a 100 countries worldwide.

Classical and current. Timeless and tech-savvy. Our multiple personalities are by design. Ferroli takes pride in mastering the blending of quintessential Italian lineage and emerging technology. Today's contemporary products come embedded with technology that helps us live smarter. Recognising this, Ferroli products are technologically advanced, stylishly designed and energy efficient.

UNIQUE FEATURES OF CALDO RANGE

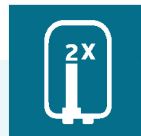

ENERGY EFFICIENT BEE 5★ RATED PRODUCT

Ferroli water heaters have high quality injected PUF insulation which conserves heat longer, resulting in significant savings in energy costs. As a result, most models of Ferroli water heaters have 5 star rating, the highest standard of the Bureau of Energy Efficiency or BEE.

HEALTHY BLUE SILICON ENAMEL COATED TANK

All Ferroli electric water heater tanks undergo a special, corrosion-proof treatment called the Blue Silicon enamel powder coating process. This treatment uses a hi-tech, electro-static application technique. The subsequent baking in the furnace at 870 °C, creates a perfect glass lining on the tank, ensuring a longer life.

LONG LASTING ALUMINIUM ANODE

All Ferroli water heaters have an aluminium anode which protects the glass lining of the tank and the heating element, giving your water heater a longer life. The aluminium anode lasts twice as long as the conventional magnesium anode which is used by other water heaters in the market.

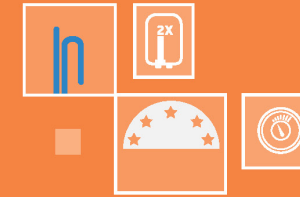

BLUE FOREVER HEATING ELEMENT

'Blue Forever' is a new generation of ultra-strong heating elements, created at the Ferroli global R&D centre in San Bonifacio. This patented technology is designed to reduce scaling, increase heating efficiency and prolong the life of the heating element significantly. 'Blue Forever' is at the heart of all Ferroli electric water heaters available in India.

GUARANTEE		
PRODUCT	HEATING ELEMENT	TANK
2 YEARS	4 YEARS	7 YEARS

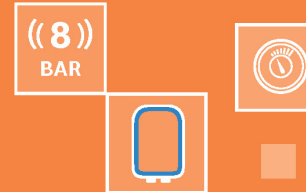

- BEE 5 star rated product*
- Blue Forever heating element
- Analog temperature display
- Long lasting aluminium anode
- Healthy Blue Silicon enamel coated tank
- High pressure rating- 8 bar
- Temperature regulation
- Environment friendly CFC free insulation
- Hi-tech capillary thermostat & cutout for additional safety

* Available in Vertical models
